

ADOPT A CLASS AND GIVE THE GIFT OF INSPIRATION

Don't you remember how you looked forward to field trips and how they *inspired* you?

GIVE THE GIFT OF INSPIRATION!

The Challenger Center wants you to give the gift of inspiration to students who someday hope to achieve their dreams. You can help make their dreams come true by sponsoring a space mission simulation for a class of deserving students.

Your tax-deductible pledge of at least \$1000 can help give a classroom of students the thrill of being astronauts on an adventure that they'll remember forever!

IN APPRECIATION OF YOUR GENEROSITY

- *You will be invited to the Challenger Center and will serve as "Honorary Flight Director" for the day!*
- *You will be on the "flight deck" and will accompany your students on their mission into space!*
- *Your name or your organization's name will be placed on the Center's Marquee, and Outdoor Sign!*
 - *Your name or your organization's name will be added to the Center's "Wall of Heroes"!*
 - *You will experience the thrill of being an astronaut too!!*

The Challenger Center's space missions are designed to provide authentic science, technology, engineering, and math learning experiences for students, and to enhance their teamwork, communication, problem-solving, and decision making skills as well. The Challenger Center's simulated but realistic space missions take students on a journey they will never forget. A mission at the Challenger Center is an entertaining and educational experience that will last a lifetime.

EXPLORING... LEARNING... INSPIRING... IT'S OUR MISSION.

MAKE IT YOUR MISSION TOO!

Be a hero to a class of students - help them realize their dreams!
